[REDACTED] has consented to address the Committee regarding the position of CIA as concerns Chinese production in basic sectors of the economy. It has been suggested that, in order to obtain maximum benefits from [REDACTED] effort, each member should obtain and be familiar with CIA/RR IM-403, 1 November 1954 entitled, "Implications of Chinese Communist Official Estimates of Industrial and Agricultural Production." (Secret) This will enable [REDACTED] to direct more pointedly his remarks towards the inter-relationship of production in the various economic sectors, as well as existing intelligence gaps which limit a complete appreciation of the Chinese economy.
